

### **cdc case study answers pdf**

These case studies are interactive exercises developed to teach epidemiologic principles and practices. They are based on real-life outbreaks and public health problems and were developed in collaboration with the original investigators and experts from the Centers for Disease Control and Prevention (CDC).

### **Epidemiologic Case Studies | CDC**

Students, read the case study up to the first question and then perform calculations, construct graphs, or discuss the answer. Students may be asked to play different roles in answering the question. After discussing the first answer satisfactorily, read on to the next question and continue with the exercise.

### **EIS Case Studies | EIS | CDC**

These Epidemiologic Case Studies are based on historical events and include epidemiologic methods that were practiced at the time. Given the historical nature of this content, the methods that are referenced in this site may be outdated practices in some settings.
