Conversion therapy is the pseudoscientific practice of trying to change an individual's sexual orientation from homosexual or bisexual to heterosexual using psychological or spiritual interventions. There is virtually no reliable evidence that sexual orientation can be changed and medical bodies warn that conversion therapy practices are ineffective and potentially harmful.

Conversion therapy - Wikipedia

Due to a lapse in appropriations, EPA websites will not be regularly updated. In the event of an environmental emergency imminently threatening the safety of human life or where necessary to protect certain property, the EPA website will be updated with appropriate information.

Jackson's skin was a medium-brown color throughout his youth; however, starting in the mid-1980s, it gradually grew paler. This was partly due to vitiligo (a long-term skin condition characterized by patches of the skin losing their pigment), but also widely considered to be due to skin bleaching and changing of his features to appear white. The cause of vitiligo is unknown, but it is believed ...
