Cohomological analysis of partial differential equations

This book is dedicated to fundamentals of a new theory, which is an analog of affine algebraic geometry for (nonlinear) partial differential equations. This theory grew up from the classical geometry of PDE's originated by S. Lie and his followers by incorporating some nonclassical ideas from the ...

Cohomological Analysis of Partial Differential Equations

A cohomological analysis of the renormalization freedom is performed in the Epstein-Glaser scheme on a flat Euclidean space. We study the deviation from commutativity between the renormalization and the action of all linear partial differential operators.

Cohomological analysis of the Epstein-Glaser - CORE

This book is dedicated to fundamentals of a new theory, which is an analog of affine algebraic geometry for (nonlinear) partial differential equations. This theory grew up from the classical geometry of PDE's originated by S. Lie and his followers by incorporating some nonclassical ideas from the theory of integrable systems, the formal theory of PDE's in its modern cohomological form ...

Cohomological analysis of partial differential equations

analysis as one of the method for PD source identification. KEYWORDS: Partial Discharge, High Voltage Insulation System, Rotating Machines, Digital Signal Processing, Frequency Spectrum. I. INTRODUCTION Partial Discharge (PD) is the process of electrical discharges which do not completely bridge the electrodes.
