The canvas attribute must return the canvas element that the context paints on.. Except where otherwise specified, for the 2D context interface, any method call with a numeric argument whose value is infinite or a NaN value must be ignored. Whenever the CSS value `currentColor` is used as a color in this API, the "computed value of the 'color' property" for the purposes of determining the ...

For all those people out there - students, academics, archivists, and eBooks readers - who have been stymied by Adobe® Acrobat's® stubborn refusal to perform optical character recognition (OCR) on a document, claiming: "Acrobat could not perform recognition (OCR) on this page because: This page contains renderable text."

Ideationizing: How to remove Renderable Text from .PDF

Context is Everything. When determining appropriate alternative text for images, context is everything. The alternative text for one image may be vastly different based upon the context and surroundings of the image itself.
