### **the other population crisis pdf**

In biology, a population is the number of all the organisms of the same group or species, which live in a particular geographical area, and have the capability of interbreeding. The area of a sexual population is the area where inter-breeding is potentially possible between any pair within the area, and where the probability of interbreeding is greater than the probability of cross-breeding ...

The scope of the stray dog problem in many parts of the world is unimaginable by American standards. Street and village dogs have always been part of the developing world's landscape, but exploding populations, increasing attacks on citizens,<sup>1</sup> and spiraling rabies epidemics have transformed this issue from a third world problem to a global public health priority.

The aging of Japan is thought to outweigh all other nations, with Japan being purported to have the highest proportion of elderly citizens. Japan is experiencing a "super-aging" society both in rural and urban areas. According to 2014 estimates, 33.0% of the Japanese population is above the age of 60, 25.9% are aged 65 or above, and 12.5% are aged 75 or above.

Romania's prudent macroeconomic management has enabled a quick recovery from the global financial crisis. Economic activity picked up in 2013 and is forecasted to reach around 2.8% in 2014, driven by the gradual improvement in the domestic demand, led by the private consumption, and by exports, mainly to the EU. Romania's economic growth potential can be further enhanced by staying on track ...
