In Rise of the Planet of the Apes, a visual theme is eyes as indicators of intelligence. In fact, "EYES" is the first word in the screenplay. The apes with green eyes are the ones dosed with the serum. And quite frequently characters are communicating with their eyes--as Will does with Caesar right at the ranch.

er. "Planet of the Apes" predicted a return to barbarism and savagery for humankind, starkly set against the rise of other species. It depicted a realm of regressive cave people and warned of impending cultural collapse. Crash landing on the planet clean-shaven in white NASA-style overalls, even Taylor,

We're some 320 light years from earth on an unnamed planet in orbit around a star in the constellation of Orion. A light year is the distance an object can travel if going at the speed of light. If a planet is in orbit around a star, it is circling around it. A constellation is a specific group of stars.
