Project SHAD, an acronym for Shipboard Hazard and Defense, was part of a larger effort called Project 112, which was conducted during the 1960s. Project SHAD encompassed tests designed to identify U.S. War Ships' vulnerabilities to attacks with chemical agents or biological warfare agents and to develop procedures to respond to such attacks while maintaining a war-fighting capability.

History: The area encompassed by Top of the World Provincial Park is within the traditional territory of the Ktunaxa Nation. During pre-colonial times, visitors came from as far away as the interior of British Columbia, Montana and Alberta to obtain chert, a grey, translucent, obsidian-like rock that was mined at Top of the World Park and traded as well as worked into tools and weapons.

Immanuel Kant (1724-1804) is the central figure in modern philosophy. He synthesized early modern rationalism and empiricism, set the terms for much of nineteenth and twentieth century philosophy, and continues to exercise a significant influence today in metaphysics, epistemology, ethics, political philosophy, aesthetics, and other fields.
