A dot matrix printer is an impact printer that prints using a fixed number of pins or wires. In contrast, inkjet and laser printers technically exhibit dot matrix printing, but they are not considered "dot matrix printers". Impact vs. non-impact is one way in which printers are divided into two classes. Dot-matrix impact printers, "the most common type still sold as of October of 2012," use "a ...

(This page contains affiliate links.) Many of you have asked when the dot sticker pages will be complete... so here you are! You might notice that some of the pages are different from their originals. I improved them and worked to format them so they are more uniform. As I have time I'll be updating the original posts to include these printables.
