We introduce the eight-factor asset pricing model as an extension of the Fama and French (2016b) five-factor model. In addition to capturing market premium, size, value, profitability and investment pricing factors, we propose three additional factors that represent momentum, liquidity and default risk.

Most contemporary ethologists view the elephant as one of the world's most intelligent animals. With a mass of just over 5 kg (11 lb), an elephant's brain has more mass than that of any other land animal, and although the largest whales have body masses twenty times those of a typical elephant, a whale's brain is barely twice the mass of an elephant's brain.
