Chaos theory is a branch of mathematics focusing on the behavior of dynamical systems that are highly sensitive to initial conditions. "Chaos" is an interdisciplinary theory stating that within the apparent randomness of chaotic complex systems, there are underlying patterns, constant feedback loops, repetition, self-similarity, fractals, self-organization, and reliance on programming at the ...

Hello Dear Reader... This educational site is a project of the Acceleration Studies Foundation (ASF).It is written by technology foresight scholar and systems theorist John M. Smart.It is intended for technology scholars, strategists, futurists, and the general public, to improve our understanding and management of accelerating change.
